**Marital Miscommunication in the Bible: The
Man Came to Me**

The mother of Samson has an experience with an angel. It seems from the double entendre, in both Hebrew and English, that something of a sexual nature occurred between them. The husband doesn't/won't/can't understand. Dr. Kissileff will examine different couples in the Bible who have difficulty with communication, and will show what we moderns can learn from their mishaps.
