

# Darchei Noam Yahrzeit Board

## Donor Text and Instructions

Please follow the instructions below to complete this form. Please make sure to write legibly (both in English and Hebrew) to ensure there are no spelling errors on the printed plaque.

Each plaque may contain up to 7 rows of text. This includes empty lines that may serve to separate between names. Each plaque may have up to 13-16 characters per row. This includes any spaces, punctuation or letters.

**Note 1:** the variation in character count is based on the size of each character (ie: an "I" takes up less space than a "W" on a line). The character length will be reviewed and verified for length prior to production. Donors will be notified of any issues and consulted regarding changes prior to production.

**Note 2:** For aesthetic purposes, book size will vary, however, all books will be equal in overall area measurement.
